

SEPTEMBER IS LITERACY MONTH

This special month raises awareness across British Columbia about the importance of literacy.

- Did you know that 700,000 people in British Columbia have significant challenges with literacy?
- Literacy is being able to understand newspapers, report cards or instruction manuals.
- Literacy is having basic computer skills to gain better employment or earn higher wages.
- Literacy is being able to read and understand health prescriptions or calculate interest on a loan or do other daily living tasks.

Richmond Public Library is the hub for literacy in Richmond.

We thank our partners for their many contributions to literacy, creating opportunities for people in Richmond to learn, connect and belong.
